*Current Contract: The Alliance you chose for the current game.

*Rivals: Top 3 Bioborgs you have faced in battle (win or lose), more times than any of the others. The more times you have faced a Bioborg, the higher on the rank they are.

*Win%: Take the number of battles won, and divide by how many battles you have engaged in.

$$W / \text{Total Battles} = \text{Win\%}$$

*W/L Example: During a game, Elvin wins 2 battles, loses the next 3, then wins another 1. His W/L Tracker would look like:

W	X	X				X			
L			X	X	X				

In addition, it would make his W% 0.5, or 50%.

*Alliance Standings:

+	Greetings And Salutations +You have a positive history with this Alliance. +Most of the time, you choose this Alliance over the others. +You won't attack this Alliance unless provoked.
=	Meh... =An Alliance you've never worked for. =Could care less if the Alliance's gets trashed.
-	Eat Gamma Death, You Filthy Animals! -If this Alliance is in play, you are more likely to attack them over the other Alliances.

New Bioborgs being for the first time always start at **Meh**.

*Distance Tour: Total number of spaces the Bioborg has moved in all games.

*Battle Streak/Slump: Longest consecutive wins or losses for the Bioborg. Looking at Elvin again, his W/L track above would translate to: **Battle Streak: 2**, and **Battle Slump: 3**.

*Victory!: Number of games won using this Bioborg.
